RUSSIA
scientists

Dmitri Mendeleev was a Russian **chemist** best known for creating the **Periodic Table of Elements** in 1869. His work laid the foundation for modern chemistry and helped standardize chemical understanding worldwide.

Alexander Popov was a Russian **physicist** and one of the early pioneers of **radio communication.** In 1895, he demonstrated a wireless signal transmission device, which many in Russia consider to be the invention of the radio.

Sergei Korolev was a Soviet rocket engineer and spacecraft designer, often called the father of the Soviet space program. He led the development of the **first artificial satellite,** Sputnik, and the **launch of the first human, Yuri Gagarin, into space.**

RUSSIA
famous people

Peter the Great (1672–1725) was the Tsar and later Emperor of Russia who radically transformed the country into a major European power. **He modernized the Russian army,** created a navy from scratch, reformed the government, and pushed Western technologies, culture, and education. He also founded St. Petersburg, which he made Russia's new capital to symbolize the country's **"window to Europe."**

Alex Ovechkin is one of the greatest **goal scorers** in ice hockey history. Born in Moscow in 1985, he's played for the Washington Capitals since 2005 and led them to their first Stanley Cup win in 2018.

Georgy Zhukov was a Soviet general and Marshal of the Soviet Union, best known for leading the Red Army to victory against Nazi Germany during World War II. He masterminded key battles like the **defense of Moscow, the siege of Leningrad, the Battle of Stalingrad, and the final assault on Berlin.**
